

3 5 Understanding Numbers 1 4 2

Numbers can mean different things depending on where they are used. For example, a larger number isn't always best (as in a golf score). In other cases, such as addresses, numbers hold no value other than as markers or identifiers.

Birthday Countdown

Fill in the calendar of the month of your birthday. Circle your birthday. Then, starting with the first of the month mark a big X through each day and count down (though it's actually forward!) until you reach the big day.

Your Birthday Month

S	M	T	W	T	F	S

Counting Up, Counting Down

The next time you walk down the street, look at the numbers on the buildings. Are they getting bigger or smaller? What if you turned around and walked in the other direction? Is one building better than another just because its number is bigger?
